- Problem Solving and Technical Writing

EXPERIENCE

THAAGAM FOUNDATION [June, 2024 - Present]
Python / Full Stack Developer

- **Thaagam.org Website** – Developed backend features using Python and Django; implemented ML-based cause recommendations with CLIP and KMeans, improving engagement by 25% and reducing query time by 40%. [Website link : Thaagam.org]

- **M7 Corporation Website & Dashboard** – Built a dynamic admin dashboard with service modules and graph-based visualizations for company operations.

- **AcustomSong.com Website** – Built a custom song ordering platform with admin dashboard, dynamic order forms, and Razorpay integration for secure and seamless payments. [Website link : acustomsong.com]

- **GCC Government - Shelter Forms** – Designed and deployed digital forms for shelter salary and food registers used by the Greater Chennai Corporation.

- **GCC PHD Attendance App** – Developed REST APIs and dashboards for attendance and leave management with face recognition using Dlib and Haar Cascade.

- **GCC Workforce App** – Created dashboards and APIs to track workforce duties, integrating photo uploads, QA workflows, and PostgreSQL optimization.

- **Sankarapuram Dashboard** – Delivered a secure admin and Mpay portal to manage municipal operations and services.

- **M7 Digital Dashboard** – Built modules for service tracking, contact forms, and full CRUD operations for internal data handling [Website link : m7.digital]

PROJECT

PORTFOLIO WEBSITE [Project Link]
Django | HTML | CSS | SQLite3

- Designed and developed a Django-based portfolio website to showcase projects, skills, and experience in a clean, structured layout.

- Built a responsive UI with sections like About, Resume, Contact, and Projects to showcase skills and personal branding.
